Many Coming To Hawaii And Plans Made To Entertain Them

SECRETARY WOOD'S REPORT TO PROMOTION COMMITTEE ENTERTAINING BECAUSE IT INDICATES GOOD TIMES

Secretary Wood and much for which the Promotion Committee and the people of Hawaii behind it have reason to be gratified. Mr. Wood's report prepared for the session of the Committee this afternoon, reads as follows:

Honolulu, Jan. 10th, 1907.

Gentlemen:—The cablegram from Secretary Higgins, confirming the Associated Press dispatch that the Los Angeles Chamber of Commerce excursion would sail from San Pedro February 23d, was one of the best pieces of news the Promotion Committee has received in some time. The excursion party will not only thoroughly represent the commercial interests of Los Angeles, but many Eastern people, who are spending the winter months in Southern California,

will doubtless take advantage of the opportunity to make an extended ocean trip via the sunshine route to Hawaii. Several newspaper correspondents will accompany the party, which will also have its official photographer, and we may expect to have wide publicity given to the event, which I hope will be the beginning of a series of winter excursions to Hawaii from the mainland and I believe will tend to bring about the early establishment of regular steamship communication between Honolulu and some Southern California port.

It is pleasing to note in this connection that so many plans are now on foot having for their object the entertainment not only of our own people but also of the strangers who may happen to be with us, for while special effort is necessary to attract to Ha-

vail those who are able to travel and are seeking what we have to offer, i.e., beautiful scenery, a perfect climate and delightful home conditions, yet it is also desirable that we do more to provide entertainment so that our visiting friends will have no hesitation in agreeing that Hawaii is indeed the Play Ground and Home Land of America.

More Band Concerts.

In addition to plans being made for the February 22d Floral Festival, the Regatta and Mardi Gras, I understand that one of our progressive citizens is endeavoring to create a sentiment favoring the holding of band concerts in Kapiolani Park every afternoon between the hours of 4 and 6, thus affording friends and acquaintances an opportunity to meet under pleasant conditions, take tea together, listen to

the music, enjoy the afternoon drive, passing the closing hours of the business day in a refreshing, enjoyable manner. Our peerless climate, splendid roads and beautiful park all favor such an undertaking. It would be a splendid accomplishment indeed to make this a feature of Honolulu life.

Bring Golf Outfits

At the suggestion of one of our golf players I forwarded by the Hongkong Mail an invitation to the Los Angeles excursionists to bring along their golfing outfits, stating that the golf players of Honolulu would do their share in seeing that they had an enjoyable time.

Christian Endeavorers

By the last mail letters were again sent to the different Trans-Continental Railways, asking that in any special matter to be published by them

referring to the Christian Endeavor Convention to be held at Seattle, Washington, in July, that they make mention of the delights of an ocean trip to Hawaii. The Canadian Pacific and Northern Pacific Railways have already assured us that they will do this. We are also hoping that the General Secretary of the Society may mention Hawaii in the special matter sent out from the Boston office. This Convention promises to draw one of the largest crowds that has ever journeyed westward at one time and we hope that our plans in connection with the event may result in turning the attention of many of these excursionists toward Hawaii and be of distinct help to travel in the immediate future.

Respectfully submitted,
H. P. WOOD,
Secretary.

COMMISSION TO STUDY SCHOOLS

Finds Many Conditions In Which It Wants Improvement

The educational affairs of the Territory will be the subject of close study by a commission of citizens, who will organize tonight for this purpose. The idea of forming such a commission originated with the Civic Federation, though the commission itself is not a part of that organization, many of its members not even being Civic Feds. The purposes of the commission are definitely expressed by the following resolution, which was introduced by a committee of the Civic Federation and adopted by that body:

EDUCATIONAL COMMISSION
"Much dissatisfaction is expressed concerning the existing condition of the public schools of Hawaii. The teachers are poorly paid, inadequate provision is made for the caring of students, the schools are too crowded, systematic courses of study should be provided in gardening, agriculture, manual training, domestic science, nursing, sanitation and the like. Your committee recommends the appointment of a commission of nine, with power to add to its number, to take up the study of educational problems of Hawaii with a view to presenting to the next Legislature a comprehensive statement of existing conditions with definite recommendations for action. This committee should be of representative men of the Territory, who would work independently of, and yet, as far as possible, in harmony with the Superintendent of Public Instruction and the Board of Education."

Although this resolution was adopted last April, it was not before about a week ago that the organization of the commission was started. L. Tenney Peck accepted the chairmanship

COMMITTEE DISCUSS PROPOSED LIQUOR LAW

The executive committee of the Civic Federation held a meeting yesterday afternoon, at which Doremus Scudder presented a report on the result of the conference between the joint committee of the Civic Federation and the Anti-Saloon League and the committee of the Liquor Dealers' Association. The report was well received and caused but little discussion.

The Liquor Dealers' Committee also held a meeting yesterday afternoon. "We are at present working with Bill 170 as a basis," said Colonel McCarthy today. "This bill was presented by the liquor dealers to the last Legislature. It was defeated, meeting with objections from the Governor. This bill has 47 sections, and we have not as yet covered more than 20 of them. It is our intention to make a rough draft of a bill and then present it to a meeting of the entire Association. Then, after it has been passed on by them, we will place it in the hands of a lawyer to get it into shape."

KAHINU IS DISMISSED
The trial of Joel Kahinu, charged with practicing medicine without a license, was held before Judge Whitney this morning and at the close of the testimony for the prosecution Judge Whitney remarked that there was no evidence on which to convict and dismissed the case. The testimony showed that Kahinu had visited a native woman while her son was sick and had advised giving him brandy diluted with a little milk, saying that he ought to be around in a couple of days.

CATTLE GET ON JAG

Cleveland, Dec. 24.—Farmers living along the banks of the Chagrin river, in the vicinity of Chagrin Falls, are threatening suit against the village officials for polluting the stream with beer. Scores of cattle, it is alleged, have been intoxicated by drinking from the river, and in some instances death has resulted in tainted milk.

"For Rent" cards on sale at the Bulletin office.

PRATT MAY GO TO KAUAI NEXT WEEK

Will Investigate The Matter of Kaapn Lands

Land Commissioner Pratt was expected to go to Kauai next week to look into the matter of the Kaapn lands, which are wanted by the Molokans, but it is not certain now that he will be able to go so soon. It all depends, he says, on the condition of the weather. The latest advices from Kauai are to the effect that there have been very heavy rains there, and that the roads in most parts of the island are practically impassable. Unless conditions in this regard improve, the Land Commissioner will postpone his visit, as it will be useless for him to go over if he is unable to get about after his arrival.

The Portuguese have expressed a desire to obtain possession of the lands of the Molokans, but Commissioner Pratt says that he understands now that all they want is some of the land down on the flats for settlement. It is to ascertain the truth of the matter that Commissioner Pratt is going to Kauai. If the weather conditions prevent his going next week as he had originally intended, he will go later.

A LIVE QUESTION

The conflict of Science and Christianity is being much discussed these days. To give some help to young men who are interested in the question whether a man can hold modern scientific views and be a Christian, the Y. M. C. A. has planned a meeting Sunday afternoon at 4 o'clock. Dr. Doremus Scudder and Rev. G. D. Edwards will both talk. These men are of the modern school, educated respectively at Yale and Harvard, and should be able to say some things of real value to those interested in the question.

That Paris newspaper which calls President Roosevelt a megalomaniac might take a few minutes and tell the difference between megalomania and genius.

SEATTLE'S CAMPAIGN FOR REPUBLICAN CONVENTION

Seattle is making a strong bid for the National Republican convention of 1908. And it will undoubtedly have the support of National Committees of the Pacific Northwest.

The campaign for Seattle began last October, when Henry Reed, Director of Exploitation for the Alaska-Yukon-Pacific Exposition sent out a letter to the National Committee of each State and Territory calling attention to the superiority of Seattle as a convention city.

This was followed by the letter of Levi Akens, National Committee for Washington, to Harry New, chairman of the National Committee. New in his response says that he will be pleased to give such aid as he can to further the project.

Committeeman Robertson of this Territory is in full accord with the plans of

Seattle and has so signified to Director Reed. He has also taken occasion to call the attention of the Pacific Coast Committee to the fact that there is a matter of representation in the convention of great moment to this Territory. It is hoped and there is every reason to believe that Hawaii will be solidly supported by the Pacific Coast people in establishing its representation on an equality with the Territories of the mainland.

Robertson feels that the representation west of the Rockies should stand together and will foster that feeling as opportunity offers.

It would be a great thing for Hawaii to have the National Convention in Seattle, as it would enable a large unofficial as well as official delegation from the islands and secure a general strengthening of interest in the affairs of the Pacific.

MEAT AND LUMBER TARGET PRACTICE CASES NEXT MONTH

Judge Dole of the United States District Court expects to go to Hilo about the end of the month to hold a term of court there. On his return the most important cases to be taken up will be those of the so-called meat trust and lumber trust.

Judge Dole states that there is nothing of any great importance to come up at the Hilo term, the principal case being that of a Japanese who is mixed up with a woman,—bigamy or something of the kind.

The clerk of the District Court has received a bunch of replications in the meat trust case, numbering something over thirty. This is not the full number of defendants, however. The case promises to be an interesting one and will probably take considerable time. The lumber trust case will also occupy a good deal of the time of the court.

Both of these cases will come up at the special term which is called for next month.

Colonel Jones of the First Regiment National Guard of Hawaii states that he has not yet obtained definite permission from the Dowsett Estate to use the tract of land in the vicinity of Wahiawa for the coming encampment of the Guards, but negotiations are in progress and it is probable that the encampment will be held there.

The regular target practice this year will be held during the encampment. This is the first time that this has been done, it being customary to hold target practice separately.

This year Col. Jones and the other members of the rifle team that went to Seagr to compete on the national rifle tournament, will be present at target practice and will give their advice and aid to shooters by their experience. This should be of much advantage to the riflemen and should have the effect of increasing the scores made.
